TO TREAT NO LONGER

Peace Negotiations in Paris Have Ceased.

President of Spain's Commission So Announces.

American Demands Too Heavy to be Borne.

The Washington Officials Do Not Know What the Outcome May be, But Hostilities Not Improbable.

PARIS, Nov. 21.—The president of the Spanish peace commission, Senor Montero Rios, has refused to continue the negotiations.

WASHINGTON NOT YET ADVISED.

WASHINGTON, Nov. 21.—The state department has not yet been advised of the reported refusal of the Spanish peace commissioners to continue the negotiations in Paris. Secretary Alger expresses disbelief in the accuracy of the report, or rather, he feels that it was based upon the personal expression of President Rios, of the Spanish commission, and that he did not necessarily represent the formal expression of the full commission.

Still the breach, if breach there has been, would not be a matter of surprise to the state department, which has shaped instructions to the American commissioners so as to bring the negotiations in Paris to a sharp issue, one way or the other, today. If President Rios did express the determination of the Spaniards, under their instructions the American commissioners will promptly pack up and leave Paris for the United States at once. It is said at the state department that nearly all of their work in such case will go for nothing.

The proceedings before the commission were so conducted that no one point agreed upon was to be regarded as binding unless a complete treaty should be made. In other words, the agreement on each point, as it was passed over, was tentative, and final acceptance was conditioned upon a complete agreement on all points.

This does not necessarily wipe out what has been accomplished under the terms of the protocol. Each article of the protocol must stand, for it was in no respect dependent on what would follow at Paris, saving the one clause touching the Philippines.

For instance, Spain agreed positively to relinquish her sovereignty over Cuba and Porto Rico and evacuate those islands, and to cede to us one of the Ladrone islands for a naval station. Those agreements are beyond recall and all that was left to be settled at Paris relates to the Philippines.

That is the ultimate position of the United States government as announced at the state department.

As to what shall follow—peace or war—the officials are not clear, and earnest consideration will be given to this subject before any decision is announced.

It is believed that the Spanish forces in Cuba will continue the evacuation of the island which is now in progress. It is not thought probable that they will attack the United States forces, the latter will not attack them so long as they continue to carry out the terms of the protocol. There is no problem connected with Porto Rico, which is now completely in our possession.

WIPED OUT BY FIRE.

Dr. Sledd's Sanitarium at Pierceton Destroyed.

The Structure and Contents Go Up in Smoke and Inmates Barely Escape With Their Lives--Heavy Loss.

A telephone message from Pierceton, Ind., is to the effect that the sanitarium of Dr. S. D. Sledd, near that place, was totally destroyed by fire at an early hour this morning. The building and contents went up in smoke and the inmates barely had time to escape from the building, so rapid was the progress of the flames.

The sanitarium was built by Dr. Sledd, of this city, about a year ago, when he invested $10,000 in buildings and in equipment. The institution based its merits on the celebrated water from Leedy's springs, which was used effectually in various diseases. Soon after erecting the sanitarium Dr. Sledd retired from active connection with the Schell Loan and Investment company and took his family to Pierceton to reside, and they were occupying the building when the fire broke out. All of their household effects were destroyed. The only article saved from the destructive blaze was an iron safe, which contained the doctor's valuable papers. The loss will be heavy. There is partial insurance.

ALL OF THE ISLANDS.

Whole Philippine Archipelago Demanded of Spain.

For a Treaty Cession $20,000,000 is Tendered.

Spain Given One Week in Which to Make Response.

Americans Refuse to Arbitrate Article 3 of the Protocol--Important Session of the Peace Commissions.

PARIS, Nov. 21.—The Spanish and American peace commissions met in joint session at 2 o'clock this afternoon. The Americans declared the United States must have the entire Philippine archipelago, and for a treaty cession of the islands the Americans tendered to Spain $20,000,000.

It is further declared that it is the purpose of the United States to maintain the Philippine islands as an "open door" to the world's commerce.

On the terms named, the United States proposes a mutual relinquishment of all claims for indemnity, national or personal, subsequent to the outbreak of the last Cuban insurrection.

November 28th is fixed as the date on which the United States commission desires a definite response to today's propositions and all other subjects in issue here.

It also declared that the United States desire to treat on the religious freedom of the Caroline islands, as agreed upon between the United States and Spain in 1886, and also of the acquisition of one of the Caroline islands for an American naval station and of cable-landing rights at other places in Spanish jurisdiction and tho revival of certain Spanish-American treaties as heretofore in force.

The Americans also refuse to arbitrate article 3 of the peace protocol as bearing upon the future disposition and control of the Philippine islands.

The meeting was then adjourned until Wednesday.

SYMPATHY FOR SPAIN.

PARIS, Nov. 21.—The Soliel today reviewing a length the peace negotiation, says:

"How miserable is the fate of our Spanish neighbors. American rapacity has not left them an inch of the territory they have possessed in America since the time of Columbus or in Oceanica since Magellan.

"But that is not the worst of their misfortune. Their whole edifice of political economy and administration is going to pieces. Their parliamentary parties, which, moreover, never had strong root, are completely disorganized and no one dares assume the responsibility of power.

"The present ministry remains because no one wishes to replace it. But it is almost powerless before the ills which threaten the country."

Touching the fate of the Spanish soldiers who are now returning to a life of idleness, the Soliel says:

"If they employ their leisure in conspiring, no one can reasonably be astonished."

The Petit Bleu says:

"Spain is becoming resigned at the idea of giving the islands up, and the cortes will understand and approve of the inevitable sacrifice."

The Figaro declares that Spain will give in because she is powerless.

The case occupied two days, but the jury rendered a verdict of not guilty in ten minutes. In the large crowd that was present in the interest of the well known minister were a great many ladies, and when the verdict was announced, regardless of the fact that another trial was in progress, there was very distinct hand clapping, showing approval of the verdict.

Allen writes a letter to the press saying he intends to remain in Nebraska after he completes his term in the United States senate and denying the report that he had accepted a position as general solicitor for an eastern railway. Senator Allen also denies the report set afloat that there was an estrangement between himself and Col. William J. Bryan. He says:

"There is absolutely nothing upon which to base the assertion. The wish is evidently father of the thought. I recognize in him one of the greatest living American statesman and shall be for him in 1900."

Every line and feature of the face are brought out with remarkable clearness, giving the appearance of a fine wash drawing. There will be a large line of this class of work on exhibition tomorrow, and the reader should not fail to visit this popular studio and see the handsome exhibit.

SEVERAL MAY DIE.

Many Persons Injured in a Cambridge (Mass.) Conflagration.

CAMBRIDGE, Mass., Nov. 21.—A fire which broke out in the pork packing establishment of John P. Squire & Co., at East Cambridge, today, resulted in serious injury to eleven men, four of whom may die, and a property loss estimated at $80,000. The watchman of the factory was not seen during the progress of the fire and it was feared he had lost his life in the flames.

IOWA TOWN DEVASTATED.

PERRY, Iowa, Nov. 21—This town sustained a fire loss last night aggregating a quarter of a million dollars. A large portion of the business part of the town is a total loss.

The heaviest loser is Allen Breed, owner of several mercantile properties and the opera house. The fire started in the livery stable of Chas. Mitchell and was soon out of control. The Des Moines fire department, with hose and wagons, and neighboring towns were put on special trains which had been called for by Perry authorities.

FLAMES ON A FROLIC.

City Trucking Company's Barn Almost Destroyed.

Horses and Trucks Saved--Fireman Swaidner Injured--Emmett Martin's Plumbing Shop Damaged.

At an early hour Sunday morning fire broke out in the barn of the City Trucking company, on East Columbia street, at the Nickel Plate crossing, and before the firemen could subdue the flames damage had been wrought to the amount of $2,000 on the contents and $500 on the building.

The fire was discovered by Dave and Tom Jacobs, stable hands, who began to release the horses at once, before turning in an alarm. Alex Banet, a night watchman, happened to be in the neighborhood and he summoned the fire department.

It was a hard blaze to fight owing to the large quantity of hay stored in the loft but the laddies fought manfully, and after half an hour's work had the flames under control. All of the horses were saved and some of the trucks and other vehicles were pulled to a place of safety, but fourteen wagons remained in the barn and they are all damaged.

The fire also communicated to the building of the Wayne Oil Tank company, doing only small damage, however.

E. H. McDonald, proprietor of the City Trucking company, says that his loss is about $2,000, and he is fully protected by insurance. He carried $4,000 insurance, divided as follows: With Schrader & Wilson, in the Scottish Union National company, $1,000; in the Connecticut, $1,000; with J. E. Beahler, in the Philadelphia Underwriteress, $1,000; with C. B. Fitch, in the Queen company, $1,000.

P. A. Randall, who owns the building, says his loss is about $500. He has insurance as follows: Schrader & Wilson, in the Palatine, $1,000; in the Agricultural, $500; with J. E. Beahler, in the Philadelphia Underwriters, $500, and on the brick building, with Schrader & Wilson, in the Agricultural, $1,000.

The origin of the fire is a mystery, but it is supposed that a tramp had stolen into the haymow to sleep and in lighting his pipe dropped a match in the hay.

Mr. McDonald secured the Barnum livery stable temporarily for quarters and is conducting business as usual there today.

FIREMAN SWAIDNER HURT.

John Swaidner, the driver of engine No. 2, was thrown from his seat while driving to the fire and was injured. At the intersection of Lafayette and Wayne streets one of the wheels of the engine landed in a chuck-hole and the jar pitched the driver to the pavement. He fell between the wheels and his body came in contact with the fire-box. He was rolled over several times, the engine finally passing over him. He dragged himself to the police station, where Dr. McOscar examined him. His injuries consisted of bruises and a badly sprained back. Swaidner was removed to his home on Barr street.

As demonstrating the sagacity and fine training of horses used by the fire department it is interesting to note that the team, unconscious of the accident that had befallen the driver, ran on without any hand to restrain them, and pulled up at the fire as if they had been guided there. It was not until then that the engineer, who was on the engine all of the time, discovered that Mr. Swaidner was missing.

PLUMBER'S STOCK DAMAGED.

About 10:30 Saturday night fire started in the plumbing establishment of Emmett Martin, corner of Buchanan and Hanna streets and the loss by fire and water is close to $1,000. The flames had their origin in the basement, where a gas jet set fire to the pine joist. Mr. Martin's loss is fully covered by insurance.

ATLANTA, Ga., Nov. 21—The committee in charge of the Atlanta peace jubilee, for which December 14 and 15 had been set, has received a telegram from the president requesting them to change the name of the peace jubilee to a demonstration over "our victorious arms."

The telegram gives as reason for the change the "uncertain outcome of the Paris conference and the exigencies which may arise."

Mr. and Mrs. R. S. Patterson have moved to Lakeside and now occupy the residence which was formerly the home of Mr. and Mrs. F. E. Stouder.

A FILIPINO'S VIEWS.

Agoncillo Likes Not What General Merritt Said.

Aguinaldo's Agent Sounds a Note of Warning.

Americans May Not Find Filipinos "Children."

Agoncillo Says the Insurgents Want Independence and Feels Sure They Will Achieve It.

LONDON, Nov. 21.—Agoncillo, the agent of Aguinaldo, with his advisors, returned here from Paris this morning. He announced himself as being very indignant at the statement made by Maj. Gen. Wesley Merritt in reply to the arraignment of American officers made by the insurgent junta at Hong Kong in an open letter to President McKinley and the people of the United States through the Associated Press. The general situation also displeased Agoncillo and, after recalling, to an interviewer, "how the Filipinos have loyally and effectively aided the Americans," he added:

"General Merritt's reference to the Filipinos as 'children' is simply an echo of a Spanish saying and he may, like the Spaniards, find his error when it is too late."

"I am afraid the Filipinos will never again submit to the yoke of a colonial government. Rather than live again as slaves they will fight to the bitter end in defense of their rights and freedom. My instructions are to claim the recognition of their independence."

"What do the Filipinos think of the American proposal to purchase the islands?" Agoncillo was asked.

"The opinion of the Filipino government cannot be favorable to it," he answered, "as they cannot allow themselves to be bought and sold like merchandise. But if the object of the moderate indemnity is that their recognition and peace be established, I don't see why, perhaps, the matter might not be submitted to their consideration."

Aguinaldo's agent was then asked what form of government the Filipinos would prefer if they could not get complete independence, but declined to answer, on the ground that it would be premature to do so; but expressed "confidence in the honor of the American nation and President McKinley, who will not permit any misunderstanding."

Entered the Home of Louis Fox and Stole Money and Jewelry.

Last Tuesday night a thief made quite a haul of valuables from the residence of Louis Fox. The fellow gained an entrance over the porch and when he left took with him a lady's gold watch, a silver watch, $8 in money and two diamond rings, besides some other trinkets. The police were notified and they kept the matter quiet until Sunday when descriptions of the stolen property were sent to surrounding cities. There is no clue to the thief, but he is supposed to have been a professional porch-climber, who visited the city long enough to make one good haul.

PHILADELPHIA, Nov., 21.—The grand jury today presented to the county court true bills of indictment against United States Senator M. S. Quay, his son Richard R. Quay and Ex-State Treasurer Benjamin J. Haygood, charged with conspiracy to unlawfully use public moneys deposited in the People's National bank, of this city, for the purchase and sale of stocks and for other purposes not authorized by law.

John S. Hopkins, former cashier of the People's bank, now dead, is named as a party to the conspiracy.

Bob Young, of Lafayette township, will become turnkey at the jail December 1.

THOMPSON DITCH CASE.

The jury in the Thompson ditch case did not reach a verdict until Sunday noon, after being out almost twenty-four hours. The verdict was opened this morning. The finding was for Mr. Thompson, except as to Mr. Fred Hockemeyer's assessment. The jury decided that he was entitled to damages in the sum of $22.80, but the other remonstrators must pay the assessment as returned by the reviewers.

THE secret of it probably is that the Spanish commissioners are working by the day.

THE fact that he can well be spared does not encourage belief that assassins will meet with prompt success in their attempts upon the life of that unspeakable royal reprobate, ex-King Milan.

THE Harvard foot ball victory is great enough to last the Cambridge school another decade and still be good.

AND this is another day added to the already large number which were to be the last for Spain in her ownership of the Philippines.

THE strength of Hon. Hugh Dougherty as a candidate must be very gratifying to that gentleman and his friends. The complete official returns show that of all the candidates on the democratic state ticket Mr. Dougherty was defeated by the smallest plurality.

ADMIRAL DEWEY every now and then lets out a new flash of his character and thus multiplies the reasons why he is the greatest man of the war. An eastern magazine recently cabled him an offer of $5,000 for one short article on the Philippines. The reply came back promptly and decisively: "Thanks, but I am too busy."

LAWSON N. FULLER, of New York, lawyer, in a speech at the Cooper Union meeting of colored people the other night, pointed out that no editor on Park Row was capable of writing an editorial that would stir up such a race war as has been started by the unpretentious colored editor of an obscure paper in North Carolina.

FRIENDS of Fred Beckel, who for eighteen years has been chief auditor of the Pacific Express company, and who is now on trial at Omaha for alleged embezzlement of $150,000 of the company's money, assert that large sums of missing money were distributed among members of the Nebraska legislature in heading off hostile legislation during the past ten years. Indeed, one clerk has already testified that such was his understanding of the way in which some of the money was used. It is expected that the incoming legislature will investigate the matter.

MAYOR SCHERER has moved on the slot machines and many of those gambling devices have been taken from saloons and other places where they have done a brisk business for several weeks. The mayor is on the right track, but he cannot claim credit for performing his duty until he has disposed of the last slot machine, suppressed the gambling dens and forced the saloons to obey the law. When the mayor has done all these things he will have a new record to which he "may point with pride" and he will have besides the hearty commendation of the public.

DR. EGGLESTON'S "Bill Jones" believed that "lickin' and larnin'" went hand in hand, but it has remained for a Michigan parent to devise an improvement on the birch. Losing patience with his ten-year-old son's obtuseness in the matter of spelling, this father sought to encourage the hoped-for but already tardy budding of orthographical genius by stringing the unprecocious youngster up by the neck to a rafter, where the lad was found by neighbors just in time to save his life. After cutting the boy down and resuscitating him, the said neighbors betrayed a cold blooded want of appreciation of the father's tutelary efforts by having him jailed on a charge of attempted murder. Potato culture appears to be in a condition of greater flourish in Pingree's state than education.

ALREADY petitions are being circulated for the construction of street pavement next year and the outlook is that even more extensive will be the improvement along that line in 1899 than it was the present year. In this connection it will not be amiss to admonish those petitioning for pavement, and the board of public works as well, that but one kind of paving material should be considered. Hereafter Fort Wayne should improve her streets with nothing but asphalt. Experience here and elsewhere has demonstrated that there is neither satisfaction nor economy in brick and we trust that the last yard of such pavement has been laid upon Fort Wayne streets. Let asphalt be the pavement of the future for Fort Wayne.

ONE OF the most vigorous opponents of the policy of expansion is Andrew Carnegie, the head of the greatest steel manufacturing concern on earth. To the New York World Mr. Carnegie contributes an article of some length, setting forth his views on the matter. Mr. Carnegie says that commercial expansion, the reason given by Secretary Gage and others for wishing to acquire the Philippines, is the very reason why he is opposed to it. The great ironmaster says the foreign commerce of the United States is now expanding at a rate that is scarcely credible. "If Secretary Gage is not satisfied with the commercial expansion which this country is enjoying, what will satisfy this man? I have seen nothing like it in my lifetime, nor have I read of anything comparable to it." Mr. Carnegie points out that while Great Britain and the United States are now on terms of most cordial amity, the most sensitive chord of Britain is her foreign trade and the present entente can only be preserved by the United States maintaining the "open door" in the Philippines. The antagonism of all Europe is invited, Mr. Carnegie says, for France, Germany and Russia are opposed to America entering upon possessions in the far east. Mr. Carnegie expresses belief that the laboring classes of the United States will be heard from with no uncertain sound in opposition to expanson when they once understand what it means to them.

BUT ONE WAY TO DO IT.

There is but one method by which Mayor Scherer can suppress gambling in Fort Wayne. That method is to close the gambling houses.

It will not accomplish anything to merely raid the places, arrest the gamblers, and after taking forfeit bail, permit the games to go on. That is the style of hold-up adopted by the constables as a means of wringing tribute from the unfortunate women of the town and it would result in no more good than is brought about by the constables—which is none at all.

To make periodical raids on the gamblers and take fines from them is simply to compel the gamblers to pay for protection. The gamblers themselves so regard it and assure their patrons that upon such an understanding they are able to guarantee immunity in their houses. To go no farther than that in the suppression of gambling is plainly to relate the municipality in a business way to the gambling fraternity—to make the city a silent partner in the lawlessness. No other view of the matter is possible.

If the mayor means business when next he raids the gambling houses, no future raids will be necessary. He will close the dens up once for all during his administration. During his first term Mayor Scherer allowed no public gambling and that is the proof that he can wipe out the evil now if he will.

George Belott Heads a Company to Purchase a State Advertising Right.

George Belott, the cigar dealer, is trying to organize a company to purchase of Adolph King the state right for illuminated advertising signs. One of these signs is located over the Wellington restaurant and contains many business cards which are conspicuous to the public eye both day and night. It is the purpose of the new company to place one of the signs in every city of more than 10,000 inhabitants in Indiana.

DECATUR BEATEN.

The High School Eleven Won From the Visitors by a Score of 12 to 0.

The Decatur High School eleven came to Fort Wayne Saturday afternoon and were conquered by a score of 12 to 0, after a desperate battle. The work of the home team was fast on the offensive and very strong on the defensive. The general all around work of Captain Drayer was high class. He was ably supported, however, by the other ten men in the game. Both touchdowns were the result of Drayer's fast work, he and Hopkins being especially effective in line bucking. Taylor and Hamilton were strong on the ends. The line up of the two teams was as follows:

FORT WAYNE.	POSITION.	DECATUR
Hamilton	Left End	Luttles, Capt
Hopkins	Left Tackle	Burns
Johnson	Left Guard	Blosser
Thayer	Center	Haroff
Pierce	Right Guard	Terry
Schulz	Right Tackle	Knoff
Taylor	Right End	Shrul
Jones	Quarter Back	Boldes
Evans	Left Half	Mygrant
Davie	Right Half	Wagoner
Drayer	Full Back	France

Referee—Klein. Umpire—Moses.

DIDN'T PLAY HUNTINGTON.

The Fort Wayne Athletic club eleven did not play in Huntington Saturday. All arrangements had been made for the game and the Huntington eleven put in a hard week at practice. Friday evening word was sent to the Lime City that Fort Wayne would cancel the game because many of the best players would be unable to go with the team.

AS A SURPRISE

Comes the Announcement of Rev. Bosch's Marriage.

He Will Wed Miss Frances Schwedes, of Terre Haute, Daughter of a Former Fort Wayne Pastor.

An announcement that will come as a surprise to the congregation and friends of the Rev. John H. Bosch is the marriage of that pastor to Miss Frances Schwedes, of Terre Haute. The nuptials will be solemnized the latter part of January at the home of the bride. Rev. Bosch is the pastor of St. John's Reformed church and has been looked upon as a confirmed bachelor. The young lady is a teacher in the Terre Haute high school and is the daughter of the Rev. Dr. Schwedes, a former pastor of the church of which his prospective son-in-law now has charge. She is a lady of high intellectual attainments. Dr. Schwedes was here about twenty years ago. The hosts of friends of the groom-elect, who are numbered beyond the circles of the church as well as in it, will extend the warm hand of congratulation upon his advent to a life of "double blessedness."

NO WASTE OF WORDS.

Evidence Which Is Right to the Point and Reliable.

Judge Frank Ives of District Court of Crookston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit with few exceptions. I have not been so free from indigestion in twenty-five years

George W. Roosevelt, U. S. Consul to Brussels, Belgium: Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion.

Mr. W. D. Tomlin, mechanical engineer, Duluth, Minn: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.

O. E. Ransom, Hustonville, Ky.: I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the tablets from my druggist have fully cured me. I find them pleasant to take, convenient to carry.

Rev. G. D. Brown, Mondovi, Wis.: The effects of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beefsteak causes no distress since I begun their use.

Over six thousand people in the state of Michigan alone in 1894 were cured of stomach trouble by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists at 50 cents, or sent by mail on receipt of price from F. A. Stuart Co., Marshall, Mich.

GOLD YIELD AFFECTED.

Mining in California Handicapped by Long Drouths.

SAN FRANCISCO, Nov. 21.—Mine owners throughout the state are discussing the effect upon California's gold output, owing to the scarcity of water in the mountains caused by the prolonged dry spell.

Colonel Dolittle, who is interested in Placer county mines, says that the prevailing dry weather is having the effect of diminishing the county's yield of gold almost 50 per cent. A. M. McDonald, another prominent mining man, estimates that the gold output of Tuolume county has fallen off more than 33 per cent. because of an insufficient water supply.

Julian Sontag has just returned from an extended tour of some of the mining counties. He says:

"All the mines about Nevada City are shut down and only three at Grass Valley are being worked. In Tuolumne county and at other points many mines are idle and will remain so until heavy rains come. A great many mines have not been worked for months because of a lack of water.

On this account California is not now in the race with Colorado as a gold producing country.

WILL LEAVE YALE.

Venerable Dr. Timothy Dwight Resigns the Presidency.

NEW HAVEN, Conn, Nov. 21.—Dr. Timothy Dwight resigned the presidency of Yale university late yesterday afternoon. His reason, as given in a letter to the corporation of the university, is that having reached the age of seventy it is for the welfare of the institution and his own happiness that he retire.

The resignation of Dr. Dwight at this time was entirely unexpected. It was a surprise to faculty and students alike.

None imagined he would retire from office until the bicentennial celebration scheduled for 1901 had been enacted with the pomp and ceremony due this event. The president's reason for retiring also was unlooked for. Though seventy years old, he is as strong in mind as he was twenty years ago.

Dr. Dwight desires his resignation to take effect at the close of the university year, and it is proposed in this interim to make every effort to effect a change in his plans. He has stated, however, that he took the step after mature deliberation and will not now retreat.

FOUND DEAD IN BED.

John A. Clark, a Veteran of Two Wars, Dies Suddenly in Bluffton.

BLUFFTON, Ind, Nov. 21.—John A. Clark, one of the oldest residents of Bluffton, was found dead in bed Saturday at the home of his son, John, on West Washington street. Indications go to show that he had been dead several hours. He has not been in good health for the past two years, but he had been able to be up and around and Friday was on the streets. When he went to bed about 8 o'clock Friday night he complained of not being well, but nothing was thought of it as he has been infirm for years. It was not discovered that he was dead until about noon.

The deceased was a veteran of both the Mexican and civil wars. In the civil war he was a member of the One Hundred and Thirtieth Indiana Volunteer infantry and served honorably throughout the war. With his death there passes away one more of the few remaining veterans of the Mexican war.

Mr. Clark was seventy-eight years of age. He was the father of ten children, nine boys and one girl, of whom one son is dead.

EVIDENCE AGAINST OLAND.

Police Believe He Is the Boy Who Killed Little Andy Bodemiller.

MUNCIE, Ind., Nov. 21.—In the child murder case the police are turning up evidence that has caused them to abandon all theories other than that the Oland boy is the slayer of little Andy Bodemiller.

The mother has contended right along that Freddie has not had a revolver or other firearm for months. Yesterday afternoon the police found a revolver that fits the description given of the gun used when the Betts boy first told how little Andy Bodemiller was killed Monday. The officers found another revolver under the outhouse in the rear of the Oland residence.

HEAVY POSTAL ROBBERY.

One Thousand Dollars Taken From a Registered Letter.

LEXINGTON, Ky., Nov. 21.—Late yesterday evening it developed that a postoffice robbery and forgery in which $1,000 is involved, has occurred somewhere between New York City and Lexington.

John E Madden, the noted horseman, a few days ago wired his wife from New York that on a certain date he would send that amount in a registered letter. When she called for the same today she found that the letter had evidently been tampered with, and it contained but two slips of paper. The government officials have been notified, and detectives put on the case. It is likely that the robbery occurred in New York.

Sent Six Packages of Dynamite.

SAN FRANCISCO, Nov. 21.—The unknown man who recently attempted to kill Turkish Consul Hall in this city by means of explosives sent by mail, forwarded no less than six packages of dynamite and fulminating caps from Butte, Mont., to the sultan's representative here. All of these are now in the possession of the police, but no arrest has yet been made in connection with the case.

Miss Crane's Engagement Denied.

SPRINGFIED, Ill., Nov. 21.—The mother of Charlotte Crane, the actress, resides in Springfield, and is the wife of Dr. Charles E. Bowles, a prominent physician. Mrs. Bowles said today that the report that her daughter was to marry Coxswain Peterson, of the United States navy was without foundation.

The High School Debating society held its regular meeting last Friday evening and had a mock trial by jury. Alexander Olds and Ollie Alringer were on trial charged with cutting the rope of the flagstaff on the building, and by the act jeopardizing the existence of the society. The prosecution was in the hands of Burns Douglass and Charles Brackenridge, while the defense was presented by John Johnson and Sidney Schwartz. Professor Schultze was judge. After a long and tedious session the jury returned a verdict of not guilty and the defendants were dismissed.

UTAH KIDNEY BEANS

The Great Kidney and Bladder Remedy.

A certain cure for Bright's Disease, Diabetes, Dropsy, Stone in Bladder, Gall Stones, Inflammation of Kidneys or Bladder. Incontinence of Urine, Retention in Urine, Sediment in Urine, Scalding Urine, Difficulty in Passing Urine, and Bed-Wetting of Children, Rheumatism, Dropsical Swellings, Pains in the Back, Irritation and Pains in the Bladder, Palpitation of the Heart, Pains under the Shoulder-Blades, Extreme Pains in the Loins, Sallow Complexion, Blotches, Continuous Headache, Great Thirst.

Beware of Liquid Kidney Remedies! they contain Alcohol. Sick kidneys should not be fed on Alcohol—it aggravates the disease. Utah Kidney Beans are solid; they are concentrated; and they act directly on the kidneys.

Rev. Roland Hull, an eminent clergyman of the Baptist Church, residing at Williamsport, Tennessee, endorses **Utah Kidney Beans** for the great relief his wife received from using them. Rev. Mr. Hull is known from one end of the State of Tennessee to the other, having been in the ministry for over half a century. This good man would not endorse a medicine or anything else unless he knew beyond the shadow of a doubt that it was worthy. Therefore, such endorsements give **Utah Kidney Beans** a standing that no other kidney remedy in the country has. Mrs. Hull received great benefit from the use of **Utah Kidney Beans**; they gave her new strength—and new life. They will lift all sufferers from kidney troubles out of sick beds and restore them to vigorous health. Strength begins to return after the first few doses.

MUNICIPAL AFFAIRS.

Money Almost All Collected for Pavements.

The Property Owners of Columbia Street Divided as to the Kind of Pavement Desired.

Comptroller Berghoff this morning said that the money for street improvements was being rapidly collected; in fact, that never before had property owners been so prompt in settling. There is not one dollar owing for the pavements south of Lewis street, a record that is seldom equalled. The property owners on Cass and High streets are coming forward with equal promptness, and before the new year whirls around the pavements will be paid for.

ON COLUMBIA STREET.

There will be a contest for the paving of East Columbia street between the advocates of sheet asphalt and asphalt block. Two petitions are circulating among the property owners.

Councilman Poirson, Gottleib C. Thieme and G. W. Wilson are advocating the sheet asphalt and W. D. Henderson, C. S. Bash and Ed. M. Wilson are hustling for the block. The advocates of sheet asphalt are desirous of having the street railway company put down a groove rail, contending that it will assist materially in protecting the asphalt. Some of the property owners are in favor of leaving the bids open to sheet, block and brick bidders, and after the bids are submitted the board of works can accept the lowest, best and cheapest bid. The street is to be paved from Calhoun to Barr street and there is comparatively no opposition to the improvement.

BOILER EXPLODES.

One Man Killed and Three Fatally Injured.

The Scene of the Accident the Erie Road, Near Lima—Jerry Foley Killed.

Yesterday Lima, Ohio, was the scene of a locomotive boiler explosion which was more disastrous to life and property than was the explosion on the Wabash road, near Lafayette, several weeks ago. The Lima accident occurred on the Chicago and Erie road, and the victims are: Fireman David Little, killed; Engineer Walter Shirtleff, Conductor Edward Quick and Brakeman Frank Smith, seriously and probably fatally injured. All the unfortunate men were residents of Huntington. Twenty-five cars were wrecked and the tracks were badly torn up for a considerable distance. The explosion was probably caused by the water getting too low in the boiler.

Traffic Temporarily Suspended.

No freight trains left this city for the west between the hours of 10 o'clock Saturday night and 8 o'clock Sunday morning. A span of the bridge over Tippecanoe river, about thirty-eight miles from this city, had been removed to allow a steam dredging machine to pass and so slow were the "ditchers" in performing their work that they blocked traffic on the road during the time mentioned. The channel of the river is being deepened about four feet, the work being performed in a manner similar to that in the Maumee several years ago.

The New Master Workman.

THE SENTINEL'S telegraphic column's Saturday told of the election of John N. Parsons to the office of general master workman of the Knights of Labor, to succeed Henry A. Hicks, whose term expired on that day. Mr. Parsons is the president of the National Association of Letter Carriers and is said to be quite a power in a political way, being one of the workers in Tammany hall circles. His election was only by a very small margin, he receiving only four more votes than Mr. Hicks. Mr. Parsons proposes to push the work of organization and it was for this purpose that he was elected. Mr. Parsons was born in 1856. His father was for many years the private secretary of David Dudley Field. Parsons was educated in the public schools and later learned the trade of machinist. He became an active member of the Machinists' assembly of the Knights of Labor when a boy. Eleven years ago he entered the postal service as a letter carrier and became an active member of the Letter Carriers' assembly of the knights.

Nickel Plate Trainmen Very Busy.

The local crews on the Nickel Plate were called out Sunday morning to help move through freight, which threatened to become congested unless more engines were put into service. The company is now receiving from the Indiana, Illinois and Iowa road at Knox 700 car loads of grain and cotton from the south and southwest, besides the regular business turned over by that line. This keeps all the rolling stock on the move and gives regular and extra trainmen all the work they can perform.

Blacksmith Products in Demand.

This is the season of the year when the Bass Foundry and Machine company makes its annual contracts with the railway companies for car axles, and Joseph Slater, who has charge of that department, has been engaged in renewing contracts for the past two or three weeks. He returned yesterday from a most successful trip. In fact, Mr. Slater said this morning that the year 1899 promised to be the most prosperous one in the history of the works, if indications point in the right direction. All the railway companies are hopeful and are placing their orders for car material more liberally than they did during any of the past five or six years. Mr. Slater is of the opinion that the Bass blacksmith shop will have all the work it can do next year, even if a day and night force is constantly employed.

Jerry Foley Meets Sudden Death.

A terrible accident, resulting in the instant death of a former citizen of Fort Wayne, occurred at Van Wert, Ohio, at 6 o'clock last Saturday evening. The victim was Jerry Foley, the son of Mr. and Mrs. Timothy Foley, of Colerick street, and the scene of the accident was a grade crossing on the Pennsylvania road. The young man was en route home from the piano factory, where he is employed, and was run down and killed by some cars which the engine, hauling freight train No. 88 was switching. The news of the sad affair was conveyed to the relatives in this city through a telegram to Miss Bertha Foley from W. H. Andrews, the unfortunate man's father-in-law, at 7:30 o'clock Saturday night.

The remains were brought to this city yesterday afternoon and taken to the undertaking establishment of Schone & Veith, where they were prepared for burial. They were then taken to the home of the bereaved parents, at 36 Colerick street. Tomorrow morning at 9 o'clock funeral services will be held at St. Patrick's church, Rev. Father J. F. Delaney officiating, and the remains will then be conveyed to the Catholic cemetery and laid in the grave.

Jerry Foley was married and the widow and two small children survive him. His parents and a brother, Timothy Foley, jr., and a sister, Miss Bertha Foley, also survive him. He was employed in the Fort Wayne Organ factory up to last September, when he resigned to take a position with the Van Wert establishment. Timothy Foley, sr., the father of the deceased, is employed in the Pittsburg round house.

Business Good in the Northwest.

A. C. F. Wichman, manager of the Anthony Wayne Manufacturing company, returned from the northwest this morning. He left Kansas City several days ago for Minneapolis, stopping en route at all the important cities and towns, and he was greatly pleased with the condition of trade in almost every line and particularly in the business in which he is engaged. Retail dealers everywhere believe in the permanency of the improvement and are buying liberally with the expectation of having a big winter and spring trade. Mr. Wichman, on his way home, came through Iowa, stopping en route to transact business, and in that state he says the outlook for the winter is exceedingly bright.

Awarded Damages for Blacklisting.

NORWALK, Ohio, Nov. 91.—The circuit court has affirmed the verdict rendered in the common pleas court against the Nickel Plate railway, awarding $5,000 damages to Frank Schaffer, a brakeman. Schaffer claims that he was blacklisted by the company, in consequence of the latter refusing to give him a certificate of good character as an employe, so that he was unable to obtain employment on any other railroad. He brought suit against the company a short time ago in the Huron county common pleas court and was awarded a verdict of $5,000.

General and Local News.

H. Geerken is sick and off duty. He is a Pittsburg shopman.

F. E. Long has returned to his duties on the Nickel Plate after attending the funeral of his father.

Richard Puff, clerk at the Bass blacksmith shop, is confined to the house with a severe attack of tonsilitis.

J. M. Zollars, Pittsburg shopman, went to Chicago last Saturday, to remain a few days the guest of friends.

Blacksmith Charles Barnes, of the Pittsburg shops, has returned from Garrett, Ind., where he spent a week with relatives.

Engineer Robert John is visiting some friends in Ohio and has taken a four days' lay off for that purpose. He is employed on the Nickel Plate.

Since Oscar Murray was appointed receiver of the Baltimore and Ohio road nearly 400 miles of new steel rail has been laid east of the Ohio river.

George Petgen, a Grand Rapids and Indiana brakeman, has gone to Kansas City to attend the funeral of his uncle, who died in that city Saturday.

Mr. and Mrs. W. S. Barlow are entertaining Mrs. Smith, of Detroit, Mrs. Barlow's mother. Mr. Barlow is a well known Nickel Plate trainman.

A. H. Staley has resumed his train duties and C. F. Wishart is taking a few days' lay off to attend to business. Both are Nickel Plate brakemen.

The Pittsburg, Fort Wayne and and Chicago is running a good many of its freight trains "double header" at present. Some of the trains have over eighty cars.

Perry Plantinga, chief draughtsman at the Western Gas Construction company's shop, has recovered from an illness which kept him at home two or three days.

William Birely and Edgar Szink this morning resumed their respective places in the Pittsburg blacksmith shop, after being absent two weeks on account of sickness.

John Ryan, who was called to the bedside of his uncle at Warsaw last week, returned to his duties in the Pittsburg copper shop this morning. The sick man is slightly better.

Boilermaker John T. Leach resumed work in the Pittsburg shops this morning, after a month's absence in the interest of the Protective Brotherhood, a new insurance order.

W. E. Hunter, claim agent of the Pennsylvania company, was the recipient this morning of a live 'possum, the gift of Ed Finan, of Monroeville, the company's tie contractor. The animal is attracting considerable attention from Mr. Hunter's railway friends. It was captured in the woods near Monroeville.

The incandescent testing room at the electric works was in operation all of yesterday, getting some machinery ready for shipment.

Agent C. H. Newton, of the Wabash, arrived home this morning. He was attending the state meeting of the Y. M. C. A. at Peru, which, he says, was a most interesting and successful affair.

The Pittsburg and Lake Erie road, in connection with the Lake Shore, yesterday put in effect a new schedule which shortens the running time between Pittsburg and Detroit two hours and twenty minutes.

Among the passengers on the Wabash train which left this city at 8:05 o'clock last evening were J. C. Peters, C. W. Cook and Charles Tait, who went to St. Louis to attend the Good Roads meeting.

James McCrea, who had been inspecting the property of the Grand Rapids and Indiana company, of which he is the president, left Saturday night on the Pennsylvania limited for Pittsburg, his home.

M. Cannon, who was buried at Peru last week, was an old Wabash employe, commencing his service with the company on the Indianapolis, Peru and Chicago road, which was once controlled by the Wabash.

Eli Isenhart, an employe of the Wabash shops, had the misfortune yesterday to crush the end of the second finger of his left hand. At the time of the accident Mr. Isenhart was engaged in handling some heavy castings.

Saturday, Engineer Daniel Grubb and Fireman John Sanborn received their engine, No. 32, which had been in the Stony Island shops for repairs, and they are again in the through freight service between this city and Bellevue.

The Wabash yardmen between Detroit and St. Louis claim to have established a new record in the length of time consumed in exchanging engines on a train. This has been accomplished by those men in one and one-half minutes.

John Carroll's condition is so much improved that the physician and the family of the sick man are greatly encouraged and now entertain strong hopes of his recovery. Mr. Carroll is a well known engineer, employed on the Wabash.

Ed. Littot, of the Pittsburg shops, was yesterday presented with a daughter, the first girl in the family. He shows by a happy expression of countenance that he is satisfied with the new domestic situation. Mr. and Mrs. Littot reside at 236 West Main street.

Saturday night Nickel Plate passenger train No. 4, due here at 8:10, had to come in over the Pennsylvania lines. A freight train got two of its cars off the tracks at the New Haven switch and blocked the road, making the detour of the passenger train necessary. No other damage resulted.

A big motor left the electric works this morning for London, England. Other shipments from the works today were a motor to Oskaloosa, Iowa, and a 500-light dynamo to Jessup, Md. The latter completes a big contract, the other machinery and apparatus leaving for Jessup several days ago.

Passenger Agent P. C. Liggett, of the Lake Shore and the Lake Erie and Western, reports business on those lines very good and improving. All the trains coming in and leaving the city over these lines are loaded with passengers. Inquiry concerning Thanksgiving rates indicates a big traffic, much larger than on former years.

Among the latest assessments of demerit marks announced by the Wabash are thirty for an engineer and a fireman for fighting on their engine. A conductor, brakeman and engineer have been discharged for an accumulation of marks and an engineer and fireman have been given credit for good service.

A. G. Porter Lodge, No. 141, Brotherhood of Locomotive Firemen, will add a number of new names to its membership list at the meeting tonight. The order has grown greatly during the past two or three months and the good work will be continued until all the eligible firemen in the city have been enrolled.

Fred Willson, late of the One Hundred and Fifty-seventh Indiana volunteers, is slowly recovering from a severe illness and is able to spend a portion of each day out doors. Fred expects to resume his old place in the electric works when he is restored to health, but does not think that day will arrive this year; so slowly does he gain strength.

Last Saturday Detective Tom Wilkinson, of the Nickel Plate, placed a young resident of Latta under arrest for the alleged theft of a lot of gun shells, belonging to General Passenger Agent Horner. The prisoner was taken to Paulding, where he was given a preliminary hearing and then bound over to court in the sum of $300. He furnished bail and was released.

Engineer William Glassford and Conductor W. H. Buell, of the Panhandle, were dismissed from that railway's service last week for alleged responsibility for the wreck at Columbus, it having been proven that they were running their train ahead of time. Glassford will go to Arizona and Buell to Tacoma, Wash., to seek employment. Both are well known and popular railway men.

Among the guests at the Randall: Sixteen members of Primrose & Dockstader's minstrels; Edwin J. Bennett, Lansing, Mich.; N. E. Bagley, Zanesville, Ohio; C. B. Howland, Indianapolis.

Mr. and Mrs. Charlie King returned last Saturday evening and are now stopping with Mr. King's mother, at 125 Montgomery street. Mr. King resumed his duties in the Bass office this morning.

Miss Elsie C. Bolman, of Ohio, has returned to complete her studies at the Conservatory of Music, and during the winter she will make her home with her aunt, Mrs. Dr. Jones, of 320 West Jefferson street.

Thomas B. Empie, the contractor, is home from St. Mary's, Ohio, where he has just completed a street paving contract amounting to between $23,000 and $24,000. Mr. Empie expects the engineer of St. Mary's in the city today to arrange a settlement for the work.

There were three prisoners in police court this morning, a vagrant, a drunk and a train climber. The mayor sent the vagrant and train climber to jail. The drunk was released. He was a farmer who had been poisoned while shucking corn. Too much whiskey was taken aboard to kill the effects of the poison and a "jag" was the result. Mayor Scherer sent the farmer home.

Mrs. William France, of 253 East Jefferson street, was surprised by her friends Saturday evening, that day being the anniversary of her birth. She was the recipient of a handsome set of chamber furniture and other presents. Cards, music and luncheon served to make the evening hours pass pleasantly and at 12 o'clock the guests took their departure. There were about sixty ladies and gentlemen present.

Miss Celia Schoerpf was agreeably surprised at her home, No. 82 Taylor street, her friends reminding her of her birthday anniversary. Mrs. George Swart and daughter, Marie, and Miss Hattie Dillen, of Huntington, were also present. Music was furnished by the Mandolin club. Dancing and games were the main features of the evening. A four-course supper was served at 12 o'clock. All departed wishing the hostess many happy returns.

The renderings of the quartet at Westminster church last night, at the musical service, were all very fine. They were assisted by Miss May Hudson, instructress on the violin at Westminster seminary. Miss Hudson is an artist in her specialty and may be added to the corps of musicians at Westminster. Mrs. Per Dahl directs the music at Westminster church and is not only an artist in vocalization, having spent two years in Paris under the best masters, but has demonstrated her ability to develope the capabilities of her students. The pastor announced for next Sabbath evening an illustrated discourse on his travels in the Holy Land. He also stated that a Thanksgiving dinner would be given by the ladies of the church at the close of the union Thanksgiving service on Thursday, from 12 to 2 p. m.

NORTHERN INDIANA NOTES.

Otis Estle, aged twenty-four, attempted suicide by taking morphine, near Columbia City. He is thought to be deranged.

Mrs. Margaret Merrick, eighty-five years old, and one of the pioneers of Wabash county, sustained a severe fall that will probably result in her death.

Mr. and Mrs. Al Stevenson, of Knox, were married for the sixth time Wednesday, they being divorced and remarried five times previous to this occasion.

The Garrett Clipper has changed hands, S. Ellis, a newspaper man of Chicago, having purchased the plant of the Little brothers, who started the venture thirteen years ago.

The Home Improvement association at Andrews has accepted the proposition of eastern capitalists to locate a shoe manufactory in that place. The citizens are now raising a subsidy of $5,000.

John Rudell, a Valparaiso barber, was found hanging from a beam in one of the horse stalls at the fair grounds near that city. He had suicided because of despondency induced by continued ill health.

The Italian woman who gave birth to a child on a Wabash train near Ashley, continued her journey the other day. The citizens at that town were kind to her and she named the baby Ashley Claudius Balbnott.

A small colony of Moravians in Starke county has taken heed of the prophetic words of Dr. J. T. Boyd, the Indianapolis Moravian divine, who is predicting the end of the world, and meetings are being held nightly in preparation for the coming dissolution.

William Slagle of Gandy's bank at Churubusco, who last week went to Columbia City to get $2,200 for the bank and returned with $1,000, alleging he had started home with two men who had drugged him, yesterday made a confession saying that he had buried the remainder of the money.

D. A. Sanders, a Goshen sawmill man, purchased of John N. Newton, of Cass county, Mich., fifty-one walnut trees, for which he paid the sum of $10,000. This particular bunch of walnut has been noted for several years and has been eagerly sought after by nearly every hardwood lumber firm of prominence in the country.

A few weeks ago drillers abandoned what was supposed to be two salt water wells on the farm of Michael Zehr, in the Adams county oil field, south of this city. As soon as he learned of the fact Mr. Zehr secured an expert and began working the abandoned wells. In a few days they were producing oil in paying quantities, and in less than two weeks over six tanks were filled with good oil. The wells will be "shot" in a few days, and it is believed they will be gushers. Just why the wells were abandoned so soon is not apparent, but is supposed to be a trick of the men who leased the land to secure a "bargain" later on. Mr. Zehr is now refusing big money for leases on other parts of his farm. This will no doubt start a new boom in the Geneva oil fields.

Ticket 93,377 is worth $10 at Reuben S. Paterson's.

If you want a good time attend St. Mary's Church Fair at Huntington tomorrow (Tuesday) night. Tickets only 50 cents round trip. Special train leaves at 7:15 p. m., and leaves Huntington returning at 11:15 p. m.

Ladies of the Women's Relief corps and members of the Sion S. Miss Addie Wallace, of Indianapolis, state president of the Ladies' Aid society, auxiliary to the Sons of Veterans, today arrived in the city and this evening will inspect the local society. The inspection will be followed by a banquet. A camp fire will be held Tuesday night to which all veterans and their friends are invited. While in the city Miss Wallace will be the guest of Miss Dyke Beals.

Tomorrow evening will occur the second attraction in the lecture course of the West Jefferson street Church of Christ. The Imperial Ladies' quartet will then make its first appearance in Fort Wayne. The quartet is not made up of ladies whose individual defects must be hidden by purely en semble work, as each is a soloist of rare ability. They have all enjoyed several years of careful training under the best teachers in this country.

In the large assembly room of the public library Miss Guild and Miss Evans have arranged to give a "hero" party next Friday, Saturday and Monday and all the children in the city are invited. Pictures of heroes will be on the walls and books and papers referring to them will be on the tables. A very pretty poster is hung on the wall in the hall and under the symbols of Thanksgiving is a list of books to be found in the library on Thanksgiving history and customs, poetry, fiction and young people's stories.

TO TREAT NO LONGER

Peace Negotiations in Paris Have Ceased.

President of Spain's Commission So Announces.

American Demands Too Heavy to be Borne.

The Washington Officials Do Not Know What the Outcome May be, But Hostilities Not Improbable.

PARIS, Nov. 21.—The president of the Spanish peace commission, Senor Montero Rios, has refused to continue the negotiations.

WASHINGTON NOT YET ADVISED.

WASHINGTON, Nov. 21.—The state department has not yet been advised of the reported refusal of the Spanish peace commissioners to continue the negotiations in Paris. Secretary Alger expresses disbelief in the accuracy of the report, or rather, he feels that it was based upon the personal expression of President Rios, of the Spanish commission, and that he did not necessarily represent the formal expression of the full commission.

Still the breach, if breach there has been, would not be a matter of surprise to the state department, which has shaped instructions to the American commissioners so as to bring the negotiations in Paris to a sharp issue, one way or the other, today. If President Rios did express the determination of the Spaniards, under their instructions the American commissioners will promptly pack up and leave Paris for the United States at once. It is said at the state department that nearly all of their work in such case will go for nothing.

The proceedings before the commission were so conducted that no one point agreed upon was to be regarded as binding unless a complete treaty should be made. In other words, the agreement on each point, as it was passed over, was tentative, and final acceptance was conditioned upon a complete agreement on all points.

This does not necessarily wipe out what has been accomplished under the terms of the protocol. Each article of the protocol must stand, for it was in no respect dependent on what would follow at Paris, saving the one clause touching the Philippines.

For instance, Spain agreed positively to relinquish her sovereignty over Cuba and Porto Rico and evacuate those islands, and to cede to us one of the Ladrone islands for a naval station. Those agreements are beyond recall and all that was left to be settled at Paris relates to the Philippines.

That is the ultimate position of the United States government as announced at the state department.

As to what shall follow—peace or war—the officials are not clear, and earnest consideration will be given to this subject before any decision is announced.

It is believed that the Spanish forces in Cuba will continue the evacuation of the island which is now in progress. It is not thought probable that they will attack the United States forces, the latter will not attack them so long as they continue to carry out the terms of the protocol. There is no problem connected with Porto Rico, which is now completely in our possession.

BLIZZARD IN KANSAS.

Sunflower State Violently Assailed by Cold and Snow.

TOPEKA, Kan., Nov. 21.—Kansas is experiencing a genuine western blizzard today. Sleet began falling shortly before midnight last night, which later turned to snow. A high wind is blowing, drifting the snow badly. Trains on all the railroads are being delayed. The thermometer has fallen over thirty degrees since yesterday evening.

WICHITA, Kan., Nov. 21.—A hard blizzard prevails in this section. Snow and frozen sleet cover the ground and the temperature is far below freezing. Cattle are suffering severely and in some localities the coal supply is insufficient.

SALINA, Kan., Nov. 21.—A fierce blizzard has been raging in this vicinity since midnight and the ground is covered with snow. Much suffering to unsheltered cattle is reported.

SLOWLY POISONED.

James Sicher Dies From Arsenic Administered in Apple Dumplings.

ALLENTOWN, Pa., Nov. 21.—James Sicher, of Mincite, died last night from the effects of arsenical poisoning. He became sick September 13th and from a robust man of 180 pounds he wasted away to a mere skeleton of ninety pounds. On October 22d Sicher had his wife and a boarder named Thomas Reidlear arrested, charged with administering poison to him in apple dumplings. They are still in jail awaiting trial.

HE WAS MURDERED.

Naked Body Found Hanging in Woods That of an Eaton (Ohio) Man.

COLUMBUS, O., Nov. 21.—A special to the Dispatch from Chillicothe, Ohio, says conclusive evidence has been found that the man whose naked body was found here suspended in a tree was murdered. It is known that the man, whose actual identity is concealed, was a member of a prominent family of Eaton, Ohio.

Parties suspected of the murder have left the state but are under surveillance while the necessary papers are being secured.

WIPED OUT BY FIRE.

Dr. Sledd's Sanitarium at Pierceton Destroyed.

The Structure and Contents Go Up in Smoke and Inmates Barely Escape With Their Lives—Heavy Loss.

A telephone message from Pierceton, Ind., is to the effect that the sanitarium of Dr. S. D. Sledd, near that place, was totally destroyed by fire at an early hour this morning. The building and contents went up in smoke and the inmates barely had time to escape from the building, so rapid was the progress of the flames.

The sanitarium was built by Dr. Sledd, of this city, about a year ago, when he invested $10,000 in buildings and in equipment. The institution based its merits on the celebrated water from Leedy's springs, which was used effectually in various diseases. Soon after erecting the sanitarium Dr. Sledd retired from active connection with the Schell Loan and Investment company and took his family to Pierceton to reside, and they were occupying the building when the fire broke out. All of their household effects were destroyed. The only article saved from the destructive blaze was an iron safe, which contained the doctor's valuable papers. The loss will be heavy. There is partial insurance.

ALL OF THE ISLANDS.

Whole Philippine Archipelago Demanded of Spain.

For a Treaty Cession $20,000,000 is Tendered.

Spain Given One Week in Which to Make Response.

Americans Refuse to Arbitrate Article 3 of the Protocol—Important Session of the Peace Commissioners.

PARIS, Nov. 21.—The Spanish and American peace commissions met in joint session at 2 o'clock this afternoon. The Americans declared the United States must have the entire Philippine archipelago, and for a treaty cession of the islands the Americans tendered to Spain $20,000,000.

It is further declared that it is the purpose of the United States to maintain the Philippine islands as an "open door" to the world's commerce.

On the terms named, the United States proposes a mutual relinquishment of all claims for indemnity, national or personal, subsequent to the outbreak of the last Cuban insurrection.

November 28th is fixed as the date on which the United States commission desires a definite response to today's propositions and all other subjects in issue here.

It also declared that the United States desire to treat on the religious freedom of the Caroline islands, as agreed upon between the United States and Spain in 1886, and also of the acquisition of one of the Caroline islands for an American naval station and of cable-landing rights at other places in Spanish jurisdiction and the revival of certain Spanish-American treaties as heretofore in force.

The Americans also refuse to arbitrate article 3 of the peace protocol as bearing upon the future disposition and control of the Philippine islands.

The meeting was then adjourned until Wednesday.

SYMPATHY FOR SPAIN.

PARIS, Nov. 21.—The Soliel today reviewing a length the peace negotiation, says:

"How miserable is the fate of our Spanish neighbors. American rapacity has not left them an inch of the territory they have possessed in America since the time of Columbus or in Oceanica since Magellan.

"But that is not the worst of their misfortune. Their whole edifice of political economy and administration is going to pieces. Their parliamentary parties, which, moreover, never had strong root, are completely disorganized and no one dares assume the responsibility of power.

"The present ministry remains because no one wishes to replace it. But it is almost powerless before the ills which threaten the country."

Touching the fate of the Spanish soldiers who are now returning to a life of idleness, the Soliel says:

"If they employ their leisure in conspiring, no one can reasonably be astonished."

The Petit Bien says:

"Spain is becoming resigned at the idea of giving the islands up, and the cortes will understand and approve of the inevitable sacrifice."

The Figaro declares that Spain will give in because she is powerless.

FRIENDLY BRITONS.

People of Portsmouth Prepare to Welcome an American Squadron.

LONDON, Nov. 21.—In consequence of rumors that an American squadron of war ships is to visit Portsmouth, the mayor of that place has written to the United States embassy promising to give the Americans a cordial welcome. Henry White, the United States charge d'affaires, in reply, has thanked the mayor of Portsmouth for his courteous letter, which he will not fail to transmit to Washington.

Mr. White, however, added: "I have not yet received information of the visit, but my government will not fail to be gratified by the knowledge that such a welcome awaits our squadron in the event of a visit."

THE COBLENTZ.

The North German Lloyd Steamer, Whose Loss Was Rumored, Reaches Port.

LONDON, Nov. 21.—It is announced in a dispatch from Lloyd's agent at Bremen that the Coblentz, of the North German Lloyd Steamship company, about whose safety fears had been entertained, arrived safely at Oporto yesterday.

A rumor has been current that the steamer City of Coblece, with 600 persons on board, had founded at sea, and it was feared that the Coblentz, of the North German Lloyd Steamship company, might have been the steamer referred to.

REV. WADE ACQUITTED.

The Methodist Presiding Elder Not Guilty of Cruelty to Animals.

MUNCIE, Ind., Nov. 21.—The trial of the Rev. C. U. Wade, presiding elder of the Muncie district of the North Indiana conference of the M. E. church, charged with cruelty to animals, because of the manner in which he dealt with a kicking horse on the streets of the city, came to an end in the circuit court Saturday evening. The case occupied two days, but the jury rendered a verdict of not guilty in ten minutes. In the large crowd that was present in the interest of the well known minister were a great many ladies, and when the verdict was announced, regardless of the fact that another trial was in progress, there was very distinct hand clapping, showing approval of the verdict.

SUDDEN DEATH.

Mrs. Jacob Henry Succumbs to Heart Disease.

Was Ill Only Twenty Minutes—Mr. and Mrs. DeGray Lose Their Child—Other Deaths.

At an early hour this morning Mrs. Jacob Henry died suddenly at her home, on South Lafayette street, of heart disease. Shortly after midnight Mrs. Henry complained to her husband of feeling unwell, and said she had severe pains in the region of the heart. Mr. Henry administered different remedies but before he could summon a physician Mrs. Henry passed away, being ill only twenty minutes. Deceased was sixty years old and was born in Germany. She and her husband resided alone, they having no children. Coroner Barnett will hold an inquest. The funeral will probably occur Wednesday.

ALLEN TRUE TO BRYAN.

The Nebraska Senator Says He is for the Leader in 1900.

OMAHA, Neb., Nov. 21.—Senator William V. Allen writes a letter to the press saying he intends to remain in Nebraska after he completes his term in the United States senate and denying the report that he had accepted a position as general solicitor for an eastern railway. Senator Allen also denies the report set afloat that there was an estrangement between himself and Col. William J. Bryan. He says:

"There is absolutely nothing upon which to base the assertion. The wish is evidently father of the thought. I recognize in him one of the greatest living American statesman and shall be for him in 1900."

OPENING DAY.

Frank R. Barrows Will Receive Visitors at His Studio Tomorrow.

Frank R. Barrows has just completed the remodeling of his studio at 23 West Berry street and tomorrow (Tuesday) will have an opening and receive his friends in the handsomest furnished studio ever opened to a Fort Wayne public. Mr. Barrows particularly wishes it understood that no sittings will be given on the opening day, but that the entire day will be devoted to the reception of visitors.

Not only are the finishings of the rooms unusually handsome but in the mechanical department everything that is new and progressive for the turning out of the various kinds of artistic work known to the art is to be found. On the walls are displayed pictures of a large number of prominent residents of this and other leading Indiana cities in the various styles for which this studio is justly famous.

Mr. Barrows has on exhibition the pictures that have won for him three state and one national medal in the Photographic association.

A new style of photographs that are now being made by Mr. Barrows and that are meeting with great favor are the "New Art Photos." Every line and feature of the face are brought out with remarkable clearness, giving the appearance of a fine wash drawing. There will be a large line of this class of work on exhibition tomorrow, and the reader should not fail to visit this popular studio and see the handsome exhibit.

SEVERAL MAY DIE.

Many Persons Injured in a Cambridge (Mass.) Conflagration.

CAMBRIDGE, Mass., Nov. 21.—A fire which broke out in the pork packing establishment of John P. Squire & Co., at East Cambridge, today, resulted in serious injury to eleven men, four of whom may die, and a property loss estimated at $80,000. The watchman of the factory was not seen during the progress of the fire and it was feared he had lost his life in the flames.

IOWA TOWN DEVASTATED.

PERRY, Iowa, Nov. 21.—This town sustained a fire loss last night aggregating a quarter of a million dollars. A large portion of the business part of the town is a total loss.

The heaviest loser is Allen Breed, owner of several mercantile properties and the opera house. The fire started in the livery stable of Chas. Mitchell and was soon out of control. The Des Moines fire department, with hose and wagons, and neighboring towns were put on special trains which had been called for by Perry authorities.

FLAMES ON A FROLIC.

City Trucking Company's Barn Almost Destroyed.

Horses and Trucks Saved—Fireman Swaidner Injured—Emmett Martin's Plumbing Shop Damaged.

At an early hour Sunday morning fire broke out in the barn of the City Trucking company, on East Columbia street, at the Nickel Plate crossing, and before the firemen could subdue the flames damage had been wrought to the amount of $2,000 on the contents and $500 on the building.

The fire was discovered by Dave and Tom Jacobs, stable hands, who began to release the horses at once, before turning in an alarm. Alex Banet, a night watchman, happened to be in the neighborhood and he summoned the fire department.

It was a hard blaze to fight owing to the large quantity of hay stored in the loft but the laddies fought manfully, and after half an hour's work had the flames under control. All of the horses were saved and some of the trucks and other vehicles were pulled to a place of safety, but fourteen wagons remained in the barn and they are all damaged.

The fire also communicated to the building of the Wayne Oil Tank company, doing only small damage, however.

E. H. McDonald, proprietor of the City Trucking company, says that his loss is about $3,000, and he is fully protected by insurance. He carried $4,000 insurance, divided as follows: With Schrader & Wilson, in the Scottish Union National company, $1,000; in the Connecticut, $1,000; with J. E. Beahler, in the Philadelphia Underwriters, $1,000; with C. B. Fitch, in the Queen company, $1,000.

P. A. Randall, who owns the building, says his loss is about $500. He has insurance as follows: Schrader & Wilson, in the Palatine, $1,000; in the Agricultural, $500; with J. E. Beahler, in the Philadelphia Underwriters, $500, and on the brick building, with Schrader & Wilson, in the Agricultural, $1,000.

The origin of the fire is a mystery, but it is supposed that a tramp had stolen into the haymow to sleep and in lighting his pipe dropped a match in the hay.

Mr. McDonald secured the Barnum livery stable temporarily for quarters and is conducting business as usual there today.

FIREMAN SWAIDNER HURT.

John Swaidner, the driver of engine No. 2, was thrown from his seat while driving to the fire and was injured. At the intersection of Lafayette and Wayne streets one of the wheels of the engine landed in a chuck-hole and the jar pitched the driver to the pavement. He fell between the wheels and his body came in contact with the fire-box. He was rolled over several times, the engine finally passing over him. He dragged himself to the police station, where Dr. McOscar examined him. His injuries consisted of bruises and a badly sprained back. Swaidner was removed to his home on Barr street.

As demonstrating the sagacity and fine training of horses used by the fire department it is interesting to note that the team, unconscious of the accident that had befallen the driver, ran on without any hand to restrain them, and pulled up at the fire as if they had been guided there. It was not until then that the enginer, who was on the engine all of the time, discovered that Mr. Swaidner was missing.

PLUMBER'S STOCK DAMAGED.

About 10:30 Saturday night fire started in the plumbing establishment of Emmett Martin, corner of Buchanan and Hanna streets and the loss by fire and water is close to $1,000. The flames had their origin in the basement, where a gas jet set fire to the pine joist. Mr. Martin's loss is fully covered by insurance.

A POINTED SUGGESTION.

President McKinley Wants Atlanta Peace Jubilee Called Something Else.

ATLANTA, Ga., Nov. 21—The committee in charge of the Atlanta peace jubilee, for which December 14 and 15 had been set, has received a telegram from the president requesting them to change the name of the peace jubilee to a demonstration over "our victorious arms."

The telegram gives as reason for the change the "uncertain outcome of the Paris conference and the exigencies which may arise."

Mr. and Mrs. R. S. Patterson have moved to Lakeside and now occupy the residence which was formerly the home of Mr. and Mrs. F. E. Stouder.

A FILIPINO'S VIEWS.

Agoncillo Likes Not What General Merritt Said.

Aguinaldo's Agent Sounds a Note of Warning.

Americans May Not Find Filipinos "Children."

Agoncillo Says the Insurgents Want Independence and Feels Sure They Will Achieve It.

LONDON, Nov. 21.—Agoncillo, the agent of Aguinaldo, with his advisors, returned here from Paris this morning. He announced himself as being very indignant at the statement made by Maj. Gen. Wesley Merritt in reply to the arraignment of American officers made by the insurgent junta at Hong Kong in an open letter to President McKinley and the people of the United States through the Associated Press. The general situation also displeased Agoncillo and, after recalling, to an interviewer, "how the Filipinos have loyally and effectively aided the Americans," he added:

"General Merritt's reference to the Filipinos as 'children' is simply an echo of a Spanish saying and he may, like the Spaniards, find his error when it is too late."

"I am afraid the Filipinos will never again submit to the yoke of a colonial government. Rather than live again as slaves they will fight to the bitter end in defense of their rights and freedom. My instructions are to claim the recognition of their independence."

"What do the Filipinos think of the American proposal to purchase the islands?" Agoncillo was asked.

"The opinion of the Filipino government cannot be favorable to it," he answered, "as they cannot allow themselves to be bought and sold like merchandise. But if the object of the moderate indemnity is that their recognition and peace be established, I don't see why, perhaps, the matter might not be submitted to their consideration."

Aguinaldo's agent was then asked what form of government the Filipinos would prefer if they could not get complete independence, but declined to answer, on the ground that it would be premature to do so; but expressed "confidence in the honor of the American nation and President McKinley, who will not permit any misunderstanding."

NEWS FROM PHILIPPINES.

MANILA, Philippine Islands, Nov. 21.—Passengers who arrived here here today by the steamer Adelanto report that two Spanish gunboats recently visited Sorsogon and fired three shells into the town, claiming that the insurgents there refused to lower their flag when ordered to do so.

On the insurgents showing fight, it is added, the gunboats left hurriedly. The shells did little damage.

A rumor that some of the men expected to burn the barracks caused company D to guard the structure all last night.

A RIB FTACTURED.

Emory Bridge, of the Wayne, Injured.

Slipped and Fell Against a Bathtub—Charles Schumacher Injured by Premature Discharge of Gun.

Emory L. Bridge, the genial chief clerk at the Wayne hotel, last evening met with an accident that will confine him to the bed for some time. Henry Pens, a truckman, drove over an embankment yesterday along the old canal bed. His vehicle was wrecked and the horse was slightly injured. Pens was not hurt.

Young Merrill Perrin, son of Mr. and Mrs. Hiram Perrin, barely escaped drowning in the lake at Reservoir park. He was playing with the two little sons of Mr. and Mrs. Chas. Sunderland, when they were joined by a fourth lad, who pushed young Perrin into the water. His screams attracted the attention of a man who was passing and he jumped in to the lake and rescued the drowning boy.

Charles Schumacher, living in Nine Mile, was the victim of a hunting accident yesterday. A premature explosion of powder inflicted a bad burn upon his face and eye. He came to the city and was attended by Dr. Havice, who believes the sight of the injured eye is not destroyed, although he says it is a very severe one.

Dr. W. H. Myers was driving along Wells street Saturday afternoon, and at the Lake Erie railroad crossing his horse shied, upsetting the buggy and throwing him out. Dr. Myers held to the lines to prevent a runaway and was dragged some distance. He escaped injury, however.

PORCH CLIMBER

Entered the House of Louis Fox and Stole Money and Jewelry.

Last Tuesday night a thief made quite a haul of valuables from the residence of Louis Fox. The fellow gained an entrance over the porch and when he left took with him a lady's gold watch, a silver watch, $8 in money and two diamond rings, besides some other trinkets. The police were notified and they kept the matter quiet until Sunday when descriptions of the stolen property were sent to surrounding cities. There is no clue to the thief, but he is supposed to have been a professional porch-climber, who visited the city long enough to make one good haul.

The secret of it probably is that the Spanish commissioners are working by the day.

The fact that he can well be spared does not encourage belief that assassins will meet with prompt success in their attempts upon the life of that unspeakable royal reprobate, ex-King Milan.

The Harvard foot ball victory is great enough to last the Cambridge school another decade and still be good.

And this is another day added to the already large number which were to be the last for Spain in her ownership of the Philippines.

The strength of Hon. Hugh Dougherty as a candidate must be very gratifying to that gentleman and his friends. The complete official returns show that of all the candidates on the democratic state ticket Mr. Dougherty was defeated by the smallest plurality.

Admiral Dewey every now and then lets out a new flash of his character and thus multiplies the reasons why he is the greatest man of the war. An eastern magazine recently cabled him an offer of $5,000 for one short article on the Philippines. The reply came back promptly and decisively: "Thanks, but I am too busy."

Lawson N. Fuller, of New York, lawyer, in a speech at the Cooper Union meeting of colored people the other night, pointed out that no editor on Park Row was capable of writing an editorial that would stir up such a race war as has been started by the unpretentious colored editor of an obscure paper in North Carolina.

Friends of Fred Beckel, who for eighteen years has been chief auditor of the Pacific Express company, and who is now on trial at Omaha for alleged embezzlement of $150,000 of the company's money, assert that large sums of missing money were distributed among members of the Nebraska legislature in heading off hostile legislation during the past ten years. Indeed, one clerk has already testified that such was his understanding of the way in which some of the money was used. It is expected that the incoming legislature will investigate the matter.

Mayor Scherer has moved on the slot machines and many of those gambling devices have been taken from saloons and other places where they have done a brisk business for several weeks. The mayor is on the right track, but he cannot claim credit for performing his duty until he has disposed of the last slot machine, suppressed the gambling dens and forced the saloons to obey the law. When the mayor has done all these things he will have a new record to which he "may point with pride" and he will have besides the hearty commendation of the public.

Dr. Eggleston's "Bill Jones" believed that "lickin' and larnin'" went hand in hand, but it has remained for a Michigan parent to devise an improvement on the birch. Losing patience with his ten-year-old son's obtuseness in the matter of spelling, this father sought to encourage the hoped-for but already tardy budding of orthographical genius by stringing the unprecocious youngster up by the neck to a rafter, where the lad was found by neighbors just in time to save his life. After cutting the boy down and resuscitating him, the said neighbors betrayed a cold blooded want of appreciation of the father's tutelary efforts by having him jailed on a charge of attempted murder. Potato culture appears to be in a condition of greater flourish in Pingree's state than education.

Already petitions are being circulated for the construction of street pavement next year and the outlook is that even more extensive will be the improvement along that line in 1899 than it was the present year. In this connection it will not be amiss to admonish those petitioning for pavement, and the board of public works as well, that but one kind of paving material should be considered. Hereafter Fort Wayne should improve her streets with nothing but asphalt. Experience here and elsewhere has demonstrated that there is neither satisfaction nor economy in brick and we trust that the last yard of such pavement has been laid upon Fort Wayne streets. Let asphalt be the pavement of the future for Fort Wayne.

One of the most vigorous opponents of the policy of expansion is Andrew Carnegie, the head of the greatest steel manufacturing concern on earth. To the New York World Mr. Carnegie contributes an article of some length, setting forth his views on the matter. Mr. Carnegie says that commercial expansion, the reason given by Secretary Gage and others for wishing to acquire the Philippines, is the very reason why he is opposed to it. The great ironmaster says the foreign commerce of the United States is now expanding at a rate that is scarcely credible. "If Secretary Gage is not satisfied with the commercial expansion which this country is enjoying, what will satisfy this man? I have seen nothing like it in my lifetime, nor have I read of anything comparable to it." Mr. Carnegie points out that while Great Britain and the United States are now on terms of most cordial amity, the most sensitive chord of Britain is her foreign trade and the present entente can only be preserved by the United States maintaining the "open door" in the Philippines. The antagonism of all Europe is invited, Mr. Carnegie says, for France, Germany and Russia are opposed to America entering upon possessions in the far east. Mr. Carnegie expresses belief that the laboring classes of the United States will be heard from with no uncertain sound in opposition to expansion when they once understand what it means to them.

BUT ONE WAY TO DO IT.

There is but one method by which Mayor Scherer can suppress gambling in Fort Wayne. That method is to close the gambling houses.

It will not accomplish anything to merely raid the places, arrest the gamblers, and after taking forfeit bail, permit the games to go on. That is the style of hold-up adopted by the constables as a means of wringing tribute from the unfortunate women of the town and it would result in no more good than is brought about by the constables—which is none at all.

To make periodical raids on the gamblers and take fines from them is simply to compel the gamblers to pay for protection. The gamblers themselves so regard it and assure their patrons that upon such an understanding they are able to guarantee immunity in their houses. To go no farther than that in the suppression of gambling is plainly to relate the municipality in a business way to the gambling fraternity—to make the city a silent partner in the lawlessness. No other view of the matter is possible.

If the mayor means business when next he raids the gambling houses, no future raids will be necessary. He will close the dens up once for all during his administration. During his first term Mayor Scherer allowed no public gambling and that is the proof that he can wipe out the evil now if he will.

A NEW ENTERPRISE.

George Belott Heads a Company to Purchase a State Advertising Right.

George Belott, the cigar dealer, is trying to organize a company to purchase of Adolph King the state right for illuminated advertising signs. One of these signs is located over the Wellington restaurant and contains many business cards which are conspicuous to the public eye both day and night. It is the purpose of the new company to place one of the signs in every city of more than 10,000 inhabitants in Indiana.

Frank Barnet, representing the New York house of Runkel Bros., manufacturers of chocolate and cocoanut preparations, is making his initiatory call on the merchants today. Mr. Barnet succeeds John Hatfield, who has had this territory for the past five years and who has just been promoted by the firm to the jobbing trade of eight states.

BAPTIST CENTENNIAL.

Fort Wayne Baptist Association Will Celebrate the Anniversary—The Program.

The Fort Wayne Baptist association will celebrate the centennial of the Baptist church in Indiana, by having appropriate exercises in the Baptist tabernacle tomorrow and Wednesday. The first Baptist church in the state was the old Silver Creek church which was built in southern Indiana, near Louisville, and was dedicated Nov. 22, 1798. Baptist churches throughout the state will celebrate the centennial.

The first session will be held at 3 o'clock tomorrow afternoon, at which time the pastors and members of the Fort Wayne Baptist association will hold a conference. In the evening, beginning at 7:30 o'clock, the centennial service will be held. Addresses will be made by the Rev. D. H. Cooper, D. D., of Peru; the Rev. Albert Ogle, of Indianapolis, and the Rev. C. M. Carter, of Muncie.

On Wednesday evening the ladies of the Baptist tabernacle will hold the centennial celebration at the church, and render a fine program which has been very careful prepared. Next Sunday morning the pastor, the Rev. L. L. Henson, will deliver the centennial sermon.

DECATUR BEATEN.

The High School Eleven Won From the Visitors by a Score of 12 to 0.

The Decatur High School eleven came to Fort Wayne Saturday afternoon and were conquered by a score of 12 to 0, after a desperate battle. The work of the home team was fast on the offensive and very strong on the defensive. The general all around work of Captain Drayer was high class. He was ably supported, however, by the other ten men in the game. Both touchdowns were the result of Drayer's fast work, he and Hopkins being especially effective in line bucking. Taylor and Hamilton were strong on the ends. The line up of the two teams was as follows:

FORT WAYNE.	POSITION.	DECATUR
Hamilton	Left End	Leutke, Capt.
Hopkins	Left Tackle	Burns
Johnson	Left Guard	Bosser
Thayer	Center	Haroff
Pierce	Right Guard	Terry
Schulz	Right Tackle	Knoff
Taylor	Right End	Shrol
Jones	Quarter Back	Dobler
Evans	Left Half	Myerant
Davis	Right Half	Wagoner
Drayer	Full Back	France

Referee—Klein. Umpire—Moses.

DIDN'T PLAY HUNTINGTON.

The Fort Wayne Athletic club eleven did not play in Huntington Saturday. All arrangements had been made for the game and the Huntington eleven put in a hard week at practice. Friday evening word was sent to the Lime City that Fort Wayne would cancel the game because many of the best players would be unable to go with the team.

AS A SURPRISE

Comes the Announcement of Rev. Bosch's Marriage.

He Will Wed Miss Frances Schwedes, of Terre Haute, Daughter of a Former Fort Wayne Pastor.

An announcement that will come as a surprise to the congregation and friends of the Rev. John H. Bosch is the marriage of that pastor to Miss Frances Schwedes, of Terre Haute. The nuptials will be solemnized the latter part of January at the home of the bride. Rev. Bosch is the pastor of St. John's Reformed church and has been looked upon as a confirmed bachelor. The young lady is a teacher in the Terre Haute high school and is the daughter of the Rev. Dr. Schwedes, a former pastor of the church of which his prospective son-in-law now has charge. She is a lady of high intellectual attainments. Dr. Schwedes was here about twenty years ago. The hosts of friends of the groom-elect, who are numbered beyond the circles of the church as well as in it, will extend the warm hand of congratulation upon his advent to a life of "double blessedness."

NO WASTE OF WORDS.

Evidence Which is Right to the Point and Reliable.

Judge Frank Ives of District Court of Crookston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit with few exceptions. I have not been so free from indigestion in twenty-five years.

George W. Roosevelt, U. S. Consul to Brussels, Belgium: Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion.

Mr. W. D. Tomlin, mechanical engineer, Duluth, Minn.: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.

O. E. Ransom, Hustonville, Ky.: I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the tablets from my druggist have fully cured me. I find them pleasant to take, convenient to carry.

Rev. G. D. Brown, Mondovi, Wis.: The effects of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beefsteak causes no distress since I began their use.

Over six thousand people in the state of Michigan alone in 1894 were cured of stomach trouble by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists at 50 cents, or sent by mail on receipt of price from F. A. Stuart Co., Marshall, Mich.

GOLD YIELD AFFECTED.

Mining in California Handicapped by Long Drouths.

San Francisco, Nov. 21.—Mine owners throughout the state are discussing the effect upon California's gold output, owing to the scarcity of water in the mountains caused by the prolonged dry spell.

Colonel Dolittle, who is interested in Placer county mines, says that the prevailing dry weather is having the effect of diminishing the county's yield of gold almost 50 per cent. A. M. McDonald, another prominent mining man, estimates that the gold output of Tuolume county has fallen off more than 33 per cent. because of an insufficient water supply.

Julian Sonntag has just returned from an extended tour of some of the mining counties. He says:

"All the mines about Nevada City are shut down and only three at Grass Valley are being worked. In Tuolumne county and at other points many mines are idle and will remain so until heavy rains come. A great many mines have not been worked for months because of a lack of water.

On this account California is not now in the race with Colorado as a gold producing country.

WILL LEAVE YALE.

Venerable Dr. Timothy Dwight Resigns the Presidency.

New Haven, Conn., Nov. 21.—Dr. Timothy Dwight resigned the presidency of Yale university late yesterday afternoon. His reason, as given in a letter to the corporation of the university, is that having reached the age of seventy it is for the welfare of the institution and his own happiness that he retire.

The resignation of Dr. Dwight at this time was entirely unexpected. It was a surprise to faculty and students alike.

None imagined he would retire from office until the bicentennial celebration scheduled for 1901 had been enacted with the pomp and ceremony due this event. The president's reason for retiring also was unlooked for. Though seventy years old, he is as strong in mind as he was twenty years ago.

Dr. Dwight desires his resignation to take effect at the close of the university year, and it is proposed in this interim to make every effort to effect a change in his plans. He has stated, however, that he took the step after mature deliberation and will not now retreat.

FOUND DEAD IN BED.

John A. Clark, a Veteran of Two Wars, Dies Suddenly in Bluffton.

Bluffton, Ind., Nov. 21.—John A. Clark, one of the oldest residents of Bluffton, was found dead in bed Saturday at the home of his son, John, on West Washington street. Indications go to show that he had been dead several hours. He has not been in good health for the past two years, but he had been able to be up and around and Friday was on the streets. When he went to bed about 8 o'clock Friday night he complained of not being well, but nothing was thought of it as he has been infirm for years. It was not discovered that he was dead until about noon.

The deceased was a veteran of both the Mexican and civil wars. In the civil war he was a member of the One Hundred and Thirtieth Indiana Volunteer infantry and served honorably throughout the war. With his death there passes away one more of the few remaining veterans of the Mexican war.

Mr. Clark was seventy-eight years of age. He was the father of ten children, nine boys and one girl, of whom one son is dead.

EVIDENCE AGAINST OLAND.

Police Believe He Is the Boy Who Killed Little Andy Bodemiller.

Muncie, Ind., Nov. 21.—In the child murder case the police are turning up evidence that has caused them to abandon all theories other than that the Oland boy is the slayer of little Andy Bodemiller.

The mother has contended right along that Freddie has not had a revolver or other firearm for months. Yesterday afternoon the police found a revolver that fits the description given of the gun used when the Betts boy first told how little Andy Bodemiller was killed Monday. The officers found another revolver under the outhouse in the rear of the Oland residence.

HEAVY POSTAL ROBBERY.

One Thousand Dollars Taken From a Registered Letter.

Lexington, Ky., Nov. 21.—Late yesterday evening it developed that a postoffice robbery and forgery in which $1,000 is involved, has occurred somewhere between New York City and Lexington.

John E. Madden, the noted horseman, a few days ago wired his wife from New York that on a certain date he would send that amount in a registered letter. When she called for the same today she found that the letter had evidently been tampered with, and it contained but two slips of paper. The government officials have been notified, and detectives put on the case. It is likely that the robbery occurred in New York.

Sent Six Packages of Dynamite.

San Francisco, Nov. 21.—The unknown man who recently attempted to kill Turkish Consul Hall in this city by means of explosives sent by mail, forwarded no less than six packages of dynamite and fulminating caps from Butte, Mont., to the sultan's representative here. All of these are now in the possession of the police, but no arrest has yet been made in connection with the case.

Miss Crane's Engagement Denied.

Springfield, Ill., Nov. 21.—The mother of Charlotte Crane, the actress, resides in Springfield, and is the wife of Dr. Charles E. Bowles, a prominent physician. Mrs. Bowles said today that the report that her daughter was to marry Coxswain Peterson, of the United States navy was without foundation.

The High School Debating society held its regular meeting last Friday evening and had a mock trial by jury. Alexander Olds and Ollie Alringer were on trial charged with cutting the rope of the flagstaff on the building, and by the act jeopardizing the existence of the society. The prosecution was in the hands of Burns Douglass and Charles Brackenridge, while the defense was presented by John Johnson and Sidney Schwartz. Professor Schultze was judge. After a long and tedious session the jury returned a verdict of not guilty and the defendants were dismissed.

Beware of Liquid Kidney Remedies!

they contain Alcohol. Sick kidneys should not be fed on Alcohol—it aggravates the disease. Utah Kidney Beans are solid; they are concentrated; and they act directly on the kidneys.

Rev. Roland Hall, an eminent clergyman of the Baptist Church, residing at Williamsport, Tennessee, endorses Utah Kidney Beans for the great relief his wife received from using them. Rev. Mr. Hall is known from one end of the State of Tennessee to the other, having been in the ministry for over half a century. The good man would not endorse a medicine or anything else unless he knew beyond the shadow of a doubt that it was worthy. Therefore, such endorsements give Utah Kidney Beans a standing that no other kidney remedy in the country has. Mrs. Hall received great benefit from the use of Utah Kidney Beans; they gave her new strength—and new life. They will lift all sufferers from kidney troubles out of sick beds and restore them to vigorous health. Strength begins to return after the first few doses.

MUNICIPAL AFFAIRS.

Money Almost All Collected for Pavements.

The Property Owners of Columbia Street Divided as to the Kind of Pavement Desired.

Comptroller Berghoff this morning said that the money for street improvements was being rapidly collected; in fact, that never before had property owners been so prompt in settling. There is not one dollar owing for the pavements south of Lewis street, a record that is seldom equalled. The property owners on Cass and High streets are coming forward with equal promptness, and before the new year whirls around the pavements will be paid for.

ON COLUMBIA STREET.

There will be a contest for the paving of East Columbia street between the advocates of sheet asphalt and asphalt block. Two petitions are circulating among the property owners.

Councilman Poirson, Gottlieb C. Thieme and G. W. Wilson are advocating the sheet asphalt and W. D. Henderson, C. S. Bash and Ed. M. Wilson are hustling for the block. The advocates of sheet asphalt are desirous of having the street railway company put down a groove rail, contending that it will assist materially in protecting the asphalt. Some of the property owners are in favor of leaving the bids open to sheet, block and brick bidders, and after the bids are submitted the board of works can accept the lowest, best and cheapest bid. The street is to be paved from Calhoun to Barr street and there is comparatively no opposition to the improvement.

BOILER EXPLODES.

One Man Killed and Three Fatally Injured.

The Scene of the Accident the Erie Road, Near Lima—Jerry Foley Killed.

Yesterday Lima, Ohio, was the scene of a locomotive boiler explosion which was more disastrous to life and property than was the explosion on the Wabash road, near Lafayette, several weeks ago. The Lima accident occurred on the Chicago and Erie road, and the victims are: Fireman David Little, killed; Engineer Walter Shirtloff, Conductor Edward Quick and Brakeman Frank Smith, seriously and probably fatally injured. All the unfortunate men were residents of Huntington. Twenty-five cars were wrecked and the tracks were badly torn up for a considerable distance. The explosion was probably caused by the water getting too low in the boiler.

Traffic Temporarily Suspended.

No freight trains left this city for the west between the hours of 10 o'clock Saturday night and 8 o'clock Sunday morning. A span of the bridge over Tippecanoe river, about thirty-eight miles from this city, had been removed to allow a steam dredging machine to pass and so slow were the "ditchers" in performing their work that they blocked traffic on the road during the time mentioned. The channel of the river is being deepened about four feet, the work being performed in a manner similar to that in the Maumee several years ago.

The New Master Workman.

The Sentinel's telegraphic column's Saturday told of the election of John N. Parsons to the office of general master workman of the Knights of Labor, to succeed Henry A. Hicks, whose term expired on that day. Mr. Parsons is the president of the National Association of Letter Carriers and is said to be quite a power in a political way, being one of the workers in Tammany hall circles. His election was only by a very small margin, he receiving only four more votes than Mr. Hicks. Mr. Parsons proposes to push the work of organization and it was for this purpose that he was elected. Mr. Parsons was born in 1850. His father was for many years the private secretary of David Dudley Field. Parsons was educated in the public schools and later learned the trade of machinist. He became an active member of the Machinists' assembly of the Knights of Labor when a boy. Eleven years ago he entered the postal service as a letter carrier and became an active member of the Letter Carriers' assembly of the knights.

Nickel Plate Trainmen Very Busy.

The local crews on the Nickel Plate were called out Sunday morning to help move through freight, which threatened to become congested unless more engines were put into service. The company is now receiving from the Indiana, Illinois and Iowa road at Knox 700 car loads of grain and cotton from the south and southwest, besides the regular business turned over by that line. This keeps all the rolling stock on the move and gives regular and extra trainmen all the work they can perform.

Blacksmith Products in Demand.

This is the season of the year when the Bass Foundry and Machine company makes its annual contracts with the railway companies for car axles, and Joseph Slator, who has charge of that department, has been engaged in renewing contracts for the past two or three weeks. He returned yesterday from a most successful trip. In fact, Mr. Slator said this morning that the year 1899 promised to be the most prosperous one in the history of the works, if indications point in the right direction. All the railway companies are hopeful and are placing their orders for car material more liberally than they did during any of the past five or six years. Mr. Slater is of the opinion that the Bass blacksmith shop will have all the work it can do next year, even if a day and night force is constantly employed.

Jerry Foley Meets Sudden Death.

A terrible accident, resulting in the instant death of a former citizen of Fort Wayne, occurred at Van Wert, Ohio, at 6 o'clock last Saturday evening. The victim was Jerry Foley, the son of Mr. and Mrs. Timothy Foley, of Colerick street, and the scene of the accident was a grade crossing on the Pennsylvania road. The young man was en route home from the piano factory, where he is employed, and

was run down and killed by some cars which the engine hauling freight train No. 88 was switching. The news of the sad affair was conveyed to the relatives in this city through a telegram to Miss Bertha Foley from W. H. Andrews, the unfortunate man's father-in-law, at 7:30 o'clock Saturday night.

The remains were brought to this city yesterday afternoon and taken to the undertaking establishment of Scheno & Veith, where they were prepared for burial. They were then taken to the home of the bereaved parents, at 36 Colerick street. Tomorrow morning at 9 o'clock funeral services will be held at St. Patrick's church, Rev. Father J. F. Delaney officiating, and the remains will then be conveyed to the Catholic cemetery and laid in the grave.

Jerry Foley was married and the widow and two small children survive him. His parents and a brother, Timothy Foley, jr., and a sister, Miss Bertha Foley, also survive him. He was employed in the Fort Wayne Organ factory up to last September, when he resigned to take a position with the Van Wert establishment. Timothy Foley, sr., the father of the deceased, is employed in the Pittsburg round house.

Business Good in the Northwest.

A. C. F. Wichman, manager of the Anthony Wayne Manufacturing company, returned from the northwest this morning. He left Kansas City several days ago for Minneapolis, stopping en route at all the important cities and towns, and he was greatly pleased with the condition of trade in almost every line and particularly in the business in which he is engaged. Retail dealers everywhere believe in the permanency of the improvement and are buying liberally with the expectation of having a big winter and spring trade. Mr. Wichman, on his way home, came through Iowa, stopping en route to transact business, and in that state he says the outlook for the winter is exceedingly bright.

Awarded Damages for Blacklisting.

NORWALK, Ohio, Nov. 21.—The circuit court has affirmed the verdict rendered in the common pleas court against the Nickel Plate railway, awarding $5,000 damages to Frank Schaffer, a brakeman. Schaffer claims that he was blacklisted by the company, in consequence of the latter refusing to give him a certificate of good character as an employe, so that he was unable to obtain employment on any other railroad. He brought suit against the company a short time ago in the Huron county common pleas court and was awarded a verdict of $5,000.

Saturday night Nickel Plate passenger train No. 4, due here at 8:10, had to come in over the Pennsylvania lines. A freight train got two of its cars off the tracks at the New Haven switch and blocked the road, making the detour of the passenger train necessary. No other damage resulted.

A big motor left the electric works this morning for London, England. Other shipments from the works today were a motor to Oskaloosa, Iowa, and a 500-light dynamo to Jessup, Md. The latter completes a big contract, the other machinery and apparatus leaving for Jessup several days ago.

Passenger Agent P. C. Liggett, of the Lake Shore and the Lake Erie and Western, reports business on those lines very good and improving. All the trains coming in and leaving the city over those lines are loaded with passengers. Inquiry concerning Thanksgiving rates indicates a big traffic, much larger than on former years.

Among the latest assessments of demerit marks announced by the Wabash are thirty for an engineer and a fireman for fighting on their engine. A conductor, brakeman and engineer have been discharged for an accumulation of marks and an engineer and fireman have been given credit for good service.

The order has grown greatly during the past two or three months and the good work will be continued until all the eligible firemen in the city have been enrolled.

Fred Willson, late of the One Hundred and Fifty-seventh Indiana volunteers, is slowly recovering from a severe illness and is able to spend a portion of each day out doors. Fred expects to resume his old place in the electric works when he is restored to health, but does not think that day will arrive this year; so slowly does he gain strength.

NORTHERN INDIANA NOTES.

Otis Estle, aged twenty-four, attempted suicide by taking morphine, near Columbia City. He is thought to be deranged.

Mrs. Margaret Merrick, eighty-five years old, and one of the pioneers of Wabash county, sustained a severe fall that will probably result in her death.

Mr. and Mrs. Al Stevenson, of Knox, were married for the sixth time Wednesday, they being divorced and remarried five times previous to this occasion.

The Garrett Clipper has changed hands, S. Ellis, a newspaper man of Chicago, having purchased the plant of the Little brothers, who started the venture thirteen years ago.

The Home Improvement association at Andrews has accepted the proposition of eastern capitalists to locate a shoe manufactory in that place. The citizens are now raising a subsidy of $5,000.

John Rodell, a Valparaiso barber, was found hanging from a beam in one of the horse stalls at the fair grounds near that city. He had suicided because of despondency induced by continued ill health.

The Italian woman who gave birth to a child on a Wabash train near Ashley, continued her journey the other day. The citizens at that town were kind to her and she named the baby Ashley Claudius Balbnott.

A small colony of Moravians in Starke county has taken heed of the prophetic words of Dr. J. T. Boyd, the Indianapolis Moravian divine, who is predicting the end of the world, and meetings are being held nightly in preparation for the coming dissolution.

William Slagle of Gandy's bank at Churubusco, who last week went to Columbia City to get $2,200 for the bank and returned with $1,000, alleging he had started home with two men who had drugged him, yesterday made a confession saying that he had buried the remainder of the money.

D. A. Sanders, a Goshen sawmill man, purchased of John N. Newton, of Cass county, Mich., fifty-one walnut trees, for which he paid the sum of $10,500. This particular bunch of walnut has been noted for several years and has been eagerly sought after by nearly every hardwood lumber firm of prominence in the country.

A few weeks ago drillers abandoned what was supposed to be two salt water wells on the farm of Michael Zehr, in the Adams county oil field, south of this city. As soon as he learned of the fact Mr. Zehr secured an expert and began working the abandoned wells. In a few days they were producing oil in paying quantities, and in less than two weeks over six tanks were filled with good oil. The wells will be "shot" in a few days, and it is believed they will be gushers. Just why the wells were abandoned so soon is not apparent, but is supposed to be a trick of the men who leased the land to secure a "bargain" later on. Mr. Zehr is now refusing big money for leases on other parts of his farm. This will no doubt start a new boom in the Geneva oil fields.
